LEVEL INDICATOR

ILP3

Product Line: **Pendulum**

Pendulum level indicator to signal the achievement of a level by granular materials and powders which form a cone inside silos and load cells. Assembly by tube suspension with threaded end G 3/4 (passage for the electrical conductors inside).

ADVANTAGES

- An **EASY TO INSTALL** instrument that does not require any calibration, maintenance or specific tool for its installation.
- **DURABLE** and **RELIABLE** with aluminium casing and electrical connection via anti-vibration faston terminals. Works with ambient temperatures from -20° to +70°C.
