

## LEVEL INDICATOR

# MN21

Product Line: **Pressure**

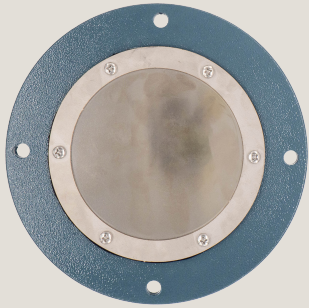

Level sensor activated through the pressure exerted by the material on the membrane.  
Durable construction with aluminum casing.

Solids

Food products

### ADVANTAGES

- An **EASY TO INSTALL** instrument that does not require any calibration, maintenance or specific tool for its installation.
- **ADAPTABLE** to any material, thanks to the adjustable sensitivity, between 10 and 500 mbar.
- Extremely **VERSATILE**, it can be installed in a vertical, horizontal or oblique position.
